

AGU 2020

Convergence Research in Climate Science: How to Move Beyond Disciplinary Silos

- Session SY001 (Oral) - DECEMBER 7th, 4am PT

<https://agu.confex.com/agu/fm20/meetingapp.cgi/Session/106853>

- Session SY004 (Poster) - DECEMBER 7th

<https://agu.confex.com/agu/fm20/meetingapp.cgi/Session/105567>

- Poster summary session: Dec. 7th, 12-1pm PT

<https://agu.confex.com/agu/fm20/meetingapp.cgi/Session/113684>

Convergence research relies on interdisciplinary research teams to solve complex societal problems. Synthesizing knowledge, methods, and expertise from different disciplines with the goal of new scientific discovery is vital. Barriers can be overcome by effective communication strategies, adoption of common frameworks, and use of a new scientific language.

Session SY001 and SY004 are organized by participants in the **Early Career Faculty Innovator Program.**
